

IX. EMERGENCY WORK

Emergency work is defined as that work which should be done immediately. By its nature it cannot be pre-planned; however, standard procedures and requirements shall apply whenever practical.

The person in charge of the emergency work shall at the earliest possible opportunity notify Seattle Transportation.

During the Day: Street Use Division - 684-5283

At Night: Charles Street Shops - 386-1218

X. ENFORCEMENT

It shall be the responsibility of the person in charge of any particular construction or maintenance project to comply with the requirements of this Manual. Should said person fail to comply, the City Traffic Engineer or his designee shall have the authority to stop all work until compliance has been achieved. Such work will not be resumed until the necessary corrections have been implemented. Any work required by City forces to achieve compliance with the Manual shall be paid for by the Agency or Contractor conducting the work. In addition, citation may be written to those directly responsible for the construction activities.
